## Individual Sessions

## For Personal Music & Art Portraits With

## Dr. Will and Madeleine Tuttle

These sessions can be for either individuals or couples.

In your session, Will meditatively tunes into your unique essence and translates this into uplifting original piano music. You will receive a private piano concert inspired by your spirit, and the music is recorded onto a 30-minute compact disc and a digital master tape.

Simultaneously, Madeleine creates a 9" x 12" watercolor painting also inspired by your essence, not a physical likeness but a unique artistic blend of evocative images.

Many people have found these sessions to be particularly helpful for increased selfunderstanding, healing, love, and in times of transition.

The suggested donation is \$135.00 and includes the half-hour session of music, the CD of your music, and the painting, all using highest quality materials. If you'd like, Madeleine can mount and frame your painting as well.

Sessions take approximately 45 minutes.
